## OMRON MICROSCAN

## **MicroHAWK MV Firmware Update Guide**

AutoVISION's simple **Device Firmware Update** feature makes it easy to download and install firmware on your camera.

## To download and install firmware:

1. Navigate to Windows Start Menu > Programs > Microscan AutoVISION > Device Firmware Update.

2. After you click Device Firmware Update, the Smart Camera Firmware Update Tool will appear. Select your camera from the Please Select a Smart Camera to Update dropdown menu.

Note: Only cameras on the same network as your PC will be visible in this menu.

Once you have selected your camera, its identifying details, such as **Model**, **Firmware Version**, **MAC Address**, **IP Address**, **Status**, and **PC Version** will be displayed.

3. Select the desired version of firmware from the **Select the Firmware Version** dropdown menu. This menu will list all the firmware versions on your PC.

**Note:** The firmware versions shown in this document are representative examples and may not necessarily reflect what you see on the dropdown menu.

4. Click the Update Firmware button.

A dialog will appear asking Are you sure you wish to update this camera? Click Yes.

If a username and password have been defined for the camera, a second dialog will then appear prompting you for your username and password.

**Important:** The username and password are both case-sensitive. Click **OK** after you have entered your username and password to begin the download and install process.

5. Login to Device Vision1

## **Firmware Compatibility**

Note that the camera's firmware version must match the version of Visionscape being used to manipulate a job on the PC. The following dialog will appear if the firmware and software versions do not match.

Incom	patible firmware 📧
	The version of the firmware loaded on this camera does not match the version installed on your computer. Please update the firmware before downloading a job to the camera.
Click view	k 'OK' to monitor the existing job on the camera. Click 'Cancel' to stay in this /.
